

# DoggySwim S490

The powerful S490 canine exercise pool is designed for medium to large sized dogs

- ▶ Four fully adjustable swim jets
- ▶ Temperature controlled with 3kw heater
- ▶ Underwater lighting
- ▶ No plumbing required - just fill with a standard hosepipe

The S490 is a powerful and compact canine hydrotherapy pool with two 3hp pumps creating a strong counter current from four fully adjustable jets. Suitable for medium to large dogs, the slip-safe ramp and steps within the S490's shell make access easy for both dog and owner.

S490 features a corona discharge ozone generator and floating automatic chlorinator plus 50 sq ft of filtration, sand filter and fur catcher membrane to maintain pure, clean water.
